ABOUT ME

As a passionate Full Stack Developer, I'm committed to building scalable, maintainable web applications using modern technologies. I specialize in creating robust backend systems with Node.js/NestJS and intuitive frontend experiences with React/Next.js.

EDUCATION

08/2021 - 07/2025
Dong A University Da Nang
Information Technology

- Valedictorian at entrance & graduation
- Talent Scholarship 50% of full course tuition
- GPA: 3.81/4.0

WORK EXPERIENCES

03/2025 - Now
Kozocom Vietnam
Backend Developer
Responsible for contributing to various projects, collaborating closely with designers, developers, and project managers to deliver high-quality applications.

- Developed and maintained web applications with Laravel and MySQL, building RESTful APIs for web and mobile clients.
- Optimized SQL queries and database schema, reducing execution time from ~60s to under 1s through indexing and query refactoring.
- Collaborated with team members daily to ensure seamless integration and project success.

06/2024 - 03/2025
KDHM Solutions
Backend Developer
Responsible for developing and maintaining backend systems, working closely with cross-functional teams to deliver scalable and efficient solutions.

- Built and optimized backend services using NestJS, TypeScript and PostgreSQL.
- Collaborated on system analysis and development, contributing to the design of effective architectures.
- Worked with front-end developers to ensure seamless data flow and user experience.
- Assisted in debugging and resolving technical issues, improving system performance and reliability.

SKILLS

Program Languages

Javascript, Typescript, PHP, Python, HTML, CSS

Databases

PostgreSQL, MySQL, MongoDB

Frameworks

Nodejs, Nestjs, Reactjs, Laravel

Tools

Git, Docker, Jira

Source Managements

Github, Gitlab, Bitbucket

PROJECTS

Games Market Website System

Description: A website system that allows conguration and management of many websites selling popular game accounts, allowing users to buy game accounts easily

- Tech stacks: Next.js, Nest.js, PostgreSQL, Prisma, Firebase, CloudFlare R2
- Position: Backend Developer
- Team size: 5 members
- Source code: github.com/HaiNam1408/sell-game-api

Interior Online Store Website

Description: An e-commerce website selling luxury furniture. The system is built using Nestjs combining Prisma for API and React and Nestjs for user interface and admin interface. The system is also integrated with an AI chatbot using GeminiAPI and RAG to support customer care.

- Tech stacks: Nestjs, ReactJs, PostgreSQL, Prisma, CloudFlare R2
- Redis Position: Fullstack Developer
- Team size: 3 members
- Source code: github.com/HaiNam1408/interlux-be

Smart AI Translate Website

Description: TranslateAI is an advanced translation app built with Next.js that leverages Gemini API (Google AI) for high-quality, context-aware language translations.

- Tech stacks: Nextjs, TailwindCSS, Zustand, Gemini API
- Position: Fullstack Developer
- Team size: 1 members
- Source code: github.com/HaiNam1408/translate-ai
- URL: smart-ai-translate.netlify.app

CERTIFICATES

The TOP 10 TEAM at UNIHACK (8/2023)

Reached the top 10 final teams at the Unihack 2023 organized by Google Developer Group

- Certificate: bit.ly/unihack-2023

OVERSEAS TECHNICAL EDUCATION PROGRAM 2023 (11/2023)

Complete the Python programming course with Korean volunteers organized by KOREATECH

- Certificate: bit.ly/certificate-by-koreatech
